

Rounding Numbers - Instructions

1. Circle the Place Value to be rounded to.

2. Underline the number after the circled number.

3. Keep all the numbers before the circle. They stay the same.

4. If underlined number is 5 or above (5, 6, 7, 8, 9) add 1 to the circled number.

5. If underlined number is 4 or below (4, 3, 2, 1, 0) the circled number stays the same.

6. Change all the numbers after the circled number to a 0.
